

GOING FOR OLYMPIC GOLD WITH GOD!

ACE, 2024-2025 we believe CHAMPIONS WORK HARD and we are GOING FOR THE GOLD.

WE ARE A TEAM!!!! And we are reaching for GOLD together - With God all things are possible!!

(This covenant agreement reflects our Olympic theme of the year)

At Academic Community Enrichment, we believe that parents are the most important teachers in a student's life. As such, Jesus' words take on powerful significance - "The disciple is not above his master: but that everyone that is perfect shall be as his master." (Luke 6:40.)

♣ **Players (students)** play – Players are not perfect – they will make mistakes.

I will be careful to provide positive encouragement to all students, to do their best. I will avoid making disparaging remarks toward students of ace. I will cheer on my ace team. Every student is here to learn and grow and I will do my part in supporting their growth. My family will pray for ace students who are struggling and come to the office to discuss anything concerning us, in lieu of discussing it with others.

♣ **Coaches (teachers)** coach – Coaches have a difficult job. Every day, teachers have to make tough decisions that they hope will help their students and their team succeed. These decisions are often made under difficult or trying circumstances.

I understand that the teacher has the right to make decisions concerning students. I may not agree with a teacher's decision, but I respect his/her right to make that decision and I support my teachers. If I feel a need to address a concern with a teacher, I will do so away from any of the students.

♣ **Officials (administrators)** officiate – Officials are the overseers of everything, they see what no one else can see. They must consider factors for the good of the whole, not just individuals.

I understand that administrators work hard to administer the rules. I know Judy and Sharise are very involved with the students and I trust their ability to make a decision that reflects the best interests of all involved and I value their role. When an administrator makes a call, I will do my best to understand and accept their decision. If I need more clarification, I will make an appointment with the office. I will not take the matter to outside sources that have no ability to explain, change or improve my situation.

♣ **Fans (You and your family)** encourage and cheer on the team!

I understand that my primary role is to provide positive encouragement and support for the players(students), the coaches (teachers) and the officials (administration). I want all involved in my community to succeed. I want our team to WIN and I want to support the players as they are learning to become champions. I know they are working hard to succeed: as they strive for GOLD!!

By God's grace, I covenant to provide a positive role model for my player and to represent my Lord and school well by demonstrating in my own life the following:

Respect – I will respect the roles that everyone plays in my school community.

Self-Control - By their nature, team sports encourage strong emotional involvement for the fanatic – the long form of the word “fan”. I will be sure to direct my emotions into positive support for my player and the ace team. I will not direct an angry response (either by word or action) toward an official, a coach, a player, or other fans. I will control myself and handle my concerns in a mature and positive way.

Enthusiasm – I will enthusiastically support the students at ace, not just my own child, by attending events for all ages, providing positive support for their efforts, cheering for their victories and encouraging them in their defeats.

I acknowledge .to fulfill the terms of this parent covenant ,by God’s grace ,I agree ,By signing below I acknowledge that may be times when we are at odds .that I have read the ace handbook staff member or another parent and that dealing with ,administrator ,with an ace teacher is potentially harmful to (.social media etc ,gossip ,harassment .conflict publicly (e.g and the witness and reputation ,the school community in general ,individual relationships of ace as a Christian School (Gal 5:13-15). If at any time it becomes apparent that my I expect to be held accountable by ace ,attitudes or actions are at odds with this covenant administration in the spirit of Matthew 18 and I commit to following the Biblical principles of and of agree to seek and consider ,peacemaking and reconciliation as established by Jesus counsel
