

ACE – OUR COMMITMENT to EVERY PARENT *and* STUDENT

1) **We are Christian.**

Our allegiance is to Jesus Christ, and we adhere to the truth of God’s Word. Ours is a covenant Christian school. We are dedicated to teaching sound doctrine, developing Christian character, and readying our students to build the kingdom of God. We will maintain a culture that loves and serves God, one another, and the world.

2) **We are committed to exceptional classroom experiences.**

- We maintain high academic standards;
- We hire only the most talented, and dedicated Christian educators;
- We keep classroom size small and focused;
- We educate from a Christian perspective.

3) **We are a Christian *COMMUNITY***

Your child will be entering a loving, challenging, and nurturing community. Our unique community will facilitate the growth of roots, which will establish your child in Christian values and truth and prepare them to thrive in new areas of growth.

4) **We are devoted to life preparation.**

We are firmly committed to preparing your child to enter the college or university of their choice or to choose a vocation. We also enable students to become grounded in Christ, ready to face the opportunities and challenges of life beyond the classroom.

5) **We are dedicated to partnering with parents.**

ACE exists to partner with parents in the process of developing their children. Your child’s teachers will be accessible to discuss their progress and plan your child's success together. We will ask our parents to be actively engaged in building the ACE community.

6) **We are service-oriented.**

At ACE, we adopt a service mindset that is both Christ-like and consumer-oriented. Our staff will seek to serve all stakeholders – parents, students, children, and others – who are likewise invested in our students’ education and character development. We will also encourage our students to adopt a Christ-like service mindset in all they do.

7) **We are committed to Expansion.**

We are growing! We will continue to grow into a full-service K-12 school.

8) **We are internationally aware and locally engaged.**

We prepare young people to learn Spanish and learn about other cultures. This broadens their horizons for the work God may called them to. We also seek students and their families who want to engage with and minister to our local community.

9) **We embrace change.** Our world changes rapidly, and while we will always remain faithful to Biblical principles, we are ready to adapt. We will prepare young people to be catalysts for God in their future.

10) **We provide a safe environment for your child.** Perhaps more than ever before, safety is a primary concern of parents. We will establish and rigorously maintain optimal safety policies and procedures. Beyond physical safety, we are also dedicated to creating a safe learning environment where students can be themselves, explore ideas, and flourish in their Christian faith.
